FLYING YOUR DRONE FOR FUN?

KNOW THE RULES—FLY SAFE

CAN I FLY THERE?

Download CASA's free app showing nearby airports, helicopter landing sites, controlled airspace and restricted areas. If you want more information go to droneflyer.gov.au

Congratulations on your purchase

We hope you have fun flying! But before you take off, there are a few things you need to remember for everyone's safety.

IMPORTANT SAFETY INFORMATION

You must only fly during the day and keep your drone **within visual line-of-sight**.

This means being able to see the aircraft with your own eyes (rather than through a device) at all times.

You must **not fly over or above people**. This could include beaches, parks, events, or sport ovals where there is a game in progress.

You must **not fly your drone higher than 120 metres (400ft)** above the ground.

You must keep your drone at least **30 metres away from other people**.

You must not fly your drone **over or near an area affecting public safety or where emergency operations are underway** (without prior approval).

This could include situations such as a car crash, police operations, a fire and associated firefighting efforts, and search and rescue.

It is **illegal to fly for money or economic reward** unless you have a drone operators certificate, or you are flying an excluded drone in the sub-2kg or private landholder category.

You must only fly **one drone at a time**.

Remember, you must not **operate your drone in a way that creates a hazard** to another aircraft, person or property.

Respect personal privacy
Don't record or photograph people without their consent—this may breach state laws.

If your drone weighs more than 100g, you must keep **at least 5.5km away from controlled aerodromes**.

Flying **within 5.5km of a non-controlled aerodrome or helicopter landing site (HLS) is possible**, but only if no manned aircraft are operating to or from the aerodrome. If you become aware of manned aircraft operating to or from the aerodrome/HLS, you must manoeuvre away from the aircraft and land as soon as safely possible.
